

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

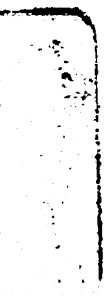

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

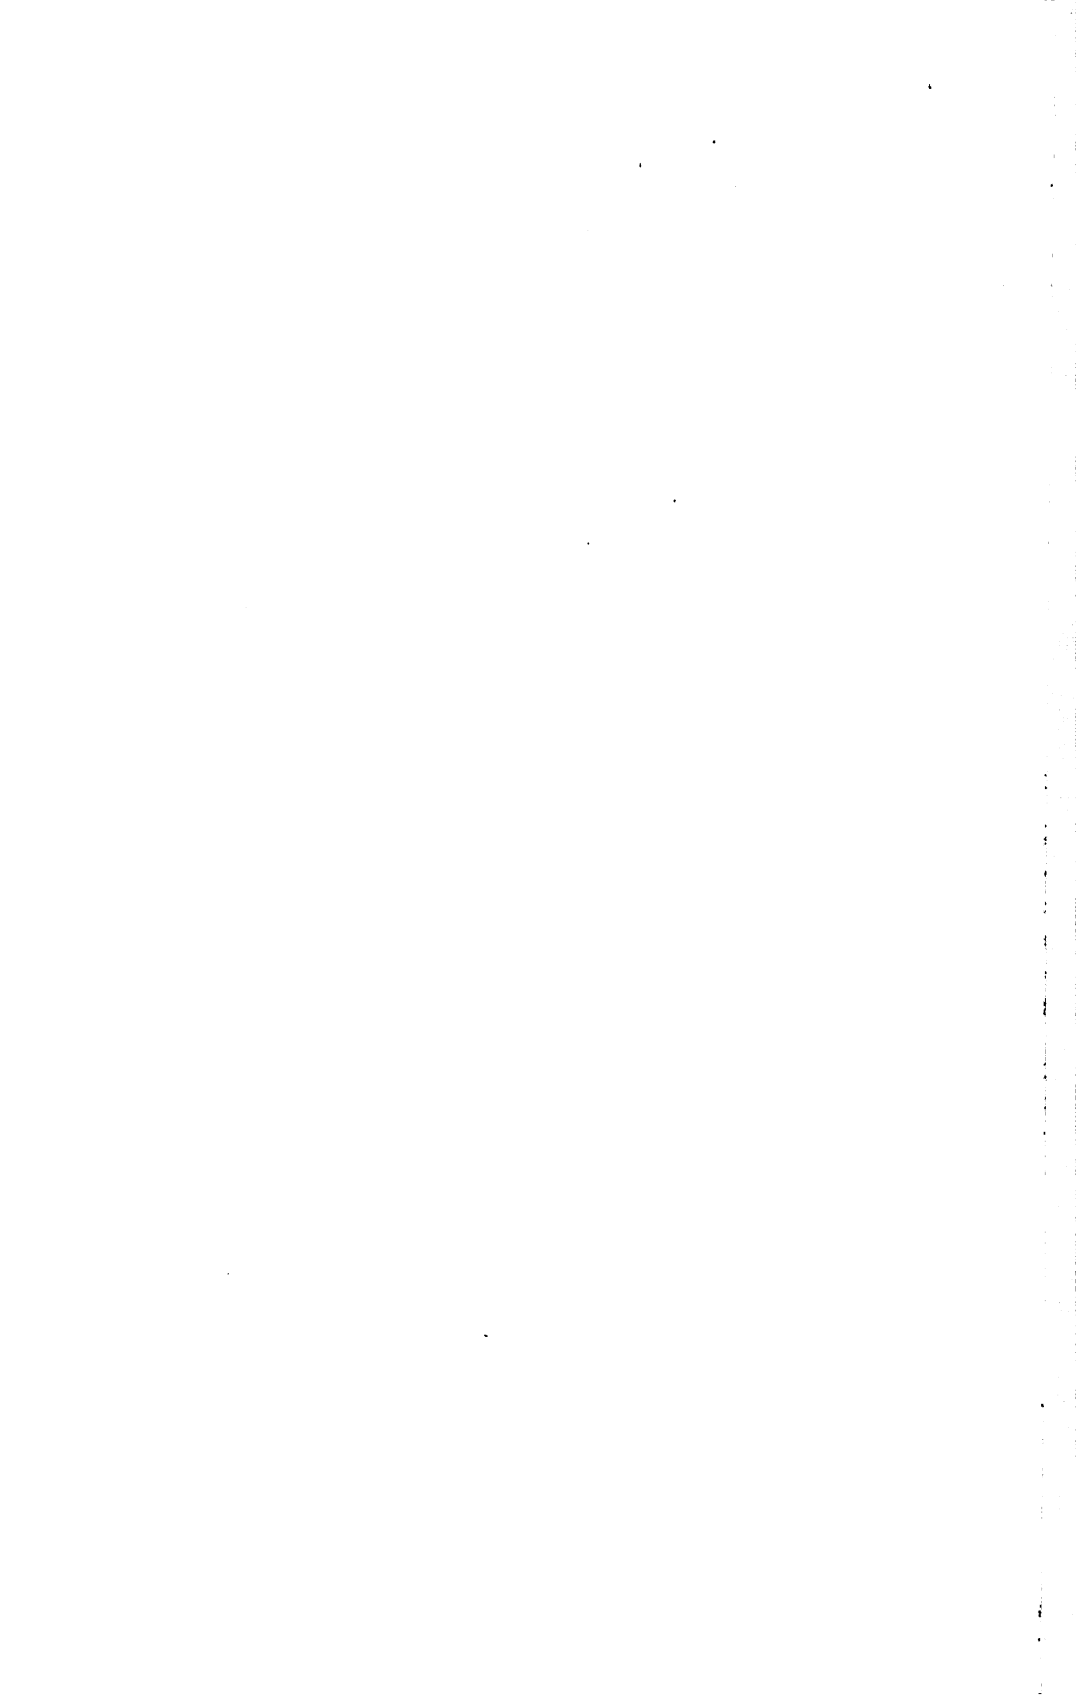

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

OFFICE OF THE SECRETARY OF STATE,
COLUMBUS, OHIO, *December 1, 1889.*

To the Honorable JOSEPH B. FORAKER, Governor of Ohio:

• In accordance with law, I hereby report to your excellency the condition and proceedings of the Department of State for the year ending November 15, 1889.

DANIEL J. RYAN,
Secretary of State.

Report of Secretary of State.

CORPORATIONS.

Notwithstanding the increase of fees for procuring certificates of incorporation, the number of corporations formed in Ohio during the past year, and the business of this office, relating thereto, has exceeded that of 1888.

The following includes the number and class of companies incorporated from November 15, 1888, to November 15, 1889: Thirteen banks and savings institutions; ninety building and loan associations; fifteen cemetery associations; 117 churches and church societies; eleven colleges and literary societies; four co-operative companies; fifty-one electric light and power companies; thirty gas, oil and natural gas companies; eight insurance associations; 312 manufacturing companies; twenty-three mining companies; twenty-seven municipal corporations; sixteen printing and publishing companies; twenty-four railroad companies; 285 political, benevolent, social and mutual societies; nineteen street railroad companies; two telegraph and telephone companies; and 156 miscellaneous companies, making a total of 1,193, as against 1,071 in 1888. It was feared at the time that the increase of the corporation fee to one dollar per thousand of the capital stock, would have a tendency toward decreasing the number of corporations during the year. No such effect was produced. The reason of this is that the transformation of private capital into corporate stock is rapidly becoming the favored form of investment in business circles, and it is worth to those concerned all that the State charges. Private firms throughout the State are almost daily capitalizing their assets, and every new enterprise assumes the form of a corporation before commencing its career. This can be readily understood when we reflect upon the characteristics of a corporation. Its two strongest recommendations are limitation of liability and permanency of operation. These are among the greatest inducements to form *bona fide* corporations, and the fact of their formation is not controlled nor affected by the fees paid the State for the privilege of their franchises. As conclusive evidence of this, I need but refer to the fact, that the aggregate capital stock, original and increase, certified to this department by corporations formed and existing

in this State during the past year, exceeds by nearly one hundred millions of dollars that of any previous year.

The authorized capital, including increase of existing corporations with classification of the corporations formed during the past year, as compared with the four previous years, has been as follows :

FEES.

The natural result of this remarkable increase in the capital stock of corporations has been a corresponding increase in the fees of this department. For many years the expense of incorporating in Ohio was merely nominal, the fees received not compensating the State for the maintenance of the official machinery used in creating corporations. By the act of March 18, 1884, passed in response to a recommendation of Secretary Newman, this department was made self-sustaining for the first time. Since 1884 the receipts of this office have been as follows :

Year.	Amount.	Increase.	Decrease.
1884	\$10,572 40		
1885	17,110 27	\$6,537 87	
1886	22,152 89	5,042 67	
1887	30,720 80	8,567 91	
1888	23,528 80		\$7,192 00

For the year ending November 15, 1889, the receipts of this department have been as follows :

First quarter	\$8,205 50
Second "	8,152 00
Third "	108,292 35
Fourth "	21,729 28
Total	\$146,379 13

This amount, being an increase of \$122,850.33 over the receipts of 1888, was mostly collected under what is known as the "Massie Law," passed February 12, 1889, and which went into effect May 1, 1889. To be specific the amount collected under said law was \$131,311.63.

Of the total fees received during the past year all, save \$57,999.30, (which is withheld for reasons hereinafter stated in this report, and \$1,000 retained by the Secretary as fees under the statute,) have been turned into the State Treasury.

As a revenue measure the "Massie Law" is a success; all that it produces renders the people exempt from taxation to that extent. Neither is it oppressive upon corporations. The fees charged for incorporating are much greater in other States of the Union. A corporate franchise is a valuable thing. If the State shares its power of eminent domain and its attribute of continuity—as it does with certain corporations—it certainly is not burdensome to ask a dollar of each thousand of their capital stock for sharing these qualities of her sovereignty. This is especially true in this State where no annual tax is levied upon corporations as such. In other States larger fees are not only charged when the charter is granted, but specific taxes are annually collected.

It is contended by some that under our present constitution the Massie Law imposes a tax in contravention thereof. Circumstances have arisen which will determine this question. On the 1st day of August, 1889, articles of consolidation of the following corporations were filed in this department: The Toledo Western Railroad Company, The Detroit and State Line Wabash Railroad Company, The Wabash Eastern Railway Company of Indiana, The Wabash Eastern Railway Company of Illinois, and The Wabash Western Railway Company, under the name of The Wabash Railroad Company. The consolidated capital aggregated fifty-two millions of dollars. The fee under the "Massie Law" was \$52,000, which was paid under protest at the time. On the 15th day of August, 1889, suit was brought in the Court of Common Pleas of Franklin county, Ohio, by Ossian D. Ashley, Thomas H. Hubbard, James F. Joy and Edgar T. Welles, against me, as Secretary of State, to recover said \$52,000, and a temporary restraining order was granted preventing me from turning that amount into the State Treasury. Said suit is still pending, and the sum mentioned is in the bank awaiting final results. Another suit in the same court was brought against me November 2, 1889, in my capacity as Secretary of State, to recover the sum of \$5,999.30, paid as an incorporation fee, by The Columbus, Shawnee and Hocking Railway Company. A restraining order against paying the same into the State Treasury having been granted, said sum awaits in bank the termination of the former suit, on which it depends.

CONSTITUTIONAL AMENDMENTS.

At the last session of the General Assembly three constitutional amendments were proposed for adoption to the people of this State. They related respectively to taxation, legislative single districts, and biennial elections. These amendments were advertised by the Secretary of State as required by the act of April 15, 1889, for six months prior to the November election in newspapers of opposite politics, printed and of general circulation in each county in the State. The cost of advertising is not reported to this office, and I am therefore unable to report the appropriation required to pay the same. This matter is now in the hands of the Supervisor of Public Printing.

WEIGHTS AND MEASURES.

At the close of the fiscal year ending November 15, 1888, there were four sets of weights and measures on hand. One set of these has been sold during the year to Andrew G. Ankenbauer, of Reading, Ohio. For this set \$115 has been received. The remaining three sets are yet in my possession.

SUPREME COURT REPORTS.

During the year one copy of volume 16, Ohio State Reports, was issued to the clerk of Guernsey county, upon the proper certificate that the same were missing from the county library.

GEOLOGICAL REPORTS.

Of the twenty-one copies of Volume V, of the Geological Report, on hand at the close of the fiscal year 1889, all have been sold. Of the 950 copies of Volume VI, of the Geological Report, remaining on hand November 15, 1888, ninety-six copies have been sold, leaving 854 copies on hand. The \$117 arising from the sale of these reports has been paid into the State Treasury.

FINANCIAL REPORT.

It is very gratifying to report that in a financial sense, this department has been of marked value to the State. Its receipts have so far exceeded its expenses that it may be regarded as the most substantial source of revenue outside of the regular system of taxation. The expenses of the department have been so managed that I can report that there will be no deficiency in any of the funds. I herewith submit a complete financial report for the past year:

RECOMMENDATIONS.

Every Secretary of State finds much to recommend that would be of decided advantage to the State. In addition to suggestions of my own I reiterate those of my predecessors, which I approve.

I desire especially to call attention to the insufficiency in the amount of the official bond of the Secretary of State. Prior to the passage of the Massie Law the collections of this department were small, the Secretary at no time having more than the amount of his bond (\$10,000) on hand. Since the passage of that law there has been no quarterly settlement that I did not turn over to the treasury much more than that amount. During the third quarter of the year past the collections were \$108,292.35. I have now on hand, that is in bank, tied up by the litigation hereinbefore mentioned, \$57,999.30. The bond should be at least one hundred thousand dollars, and I therefore recommend legislation to that effect, or a more frequent settlement with the State Treasurer. The average amount on hand at each quarterly settlement will not exceed twenty thousand dollars.

It is due to the people of Ohio that every corporation organized under the laws of this State, and doing business therein, should file in the Department of State an annual report of its financial condition, together with a list of its stockholders. This should be a matter of public record. Some corporations do this now in other departments—for instance, banks, railroad and insurance companies. There is no good reason why it should not be done by all others. I heartily indorse Secretary Robinson's views on this subject set forth in his report for 1887, and refer to it for an extended discussion of its worth and necessity.

The present law, under which stationery and other articles are furnished to the General Assembly, should be amended in the interest of the State. Under the present system loose practices have grown up, which results in unnecessary expense of public funds. I recommend that each member of the General Assembly be required to draw his supplies upon a requisition signed by him and presented to the Secretary of State, or the Sergeant-at-Arms of whatever branch the member belongs to. I am satisfied that this will result in greater economy in the drawing of supplies, and will be a saving to the State of hundreds of dollars annually.

Frequent inquiry is made of this department for date and terms, or copies of leases from some one railroad company to another; for copies of traffic agreements and agreements between railroad companies forming joint through lines. Contracts such as these, though often of the greatest interest to the public, are never recorded in this office nor in the office of the Commissioner of Railroads. In my judgment, railway companies should

be compelled to file or record the contracts above named, either in the office or in that of the Commissioner of Railroads, when the same will be open to the inspection of any person interested therein.

MISCELLANEOUS.

During the past year special official documents have been published by this department, which have met with marked approval from the public and the press. While their publication may have added an increased expense to the printing fund, they have been of all the value to the people that they cost. The documents published are, Roster of Ohio officers, Federal, State and county; the Registration Laws, with forms; the Constitution of Ohio with Proposed Amendments; Building Association Laws of Ohio, and the Election Statistics.

I desire to acknowledge my obligations and thanks to the industrious and efficient corps of clerks in this office, and especially to Mr. Charles Kinney, Chief Clerk, for his faithful and intelligent official service. His conscientious and able discharge of his duties has increased the confidence which I already had in him.

I am, very respectfully,

DANIEL J. RYAN,
Secretary of State.

There were re-valuations of real property of the State for the years 1826, 1835, 1841, 1847, 1854, 1861, 1871 and 1881.

NOTE.—Prior to 1826, real-estate only was brought upon the duplicate for taxation for State purposes. Funds for county purposes were derived from a poll-tax, and a tax upon horses, mules and cattle, to which was added, by legislative appropriation, a percentage from one-fifth to one-half, varying with the several years, from the taxes levied upon real-estate.

Under the act of February 3, 1825, which took effect March 1, 1826, all taxable

property was placed upon the grand duplicate, viz., lands and town lots, including buildings, horses, cattle, pleasure carriages, over the value of one hundred dollars, and merchants' and brokers' capital, to which was added, "money loaned at interest," and "all grist, oil and saw-mills; all manufactories of iron, glass, paper, clocks and nails; all distilleries, breweries and tanneries; all iron, brass and copper foundries," under act of *March 14, 1831*.

Under the act of *March 2, 1846*, a new system of taxation was inaugurated, which, with various slight modifications, is now in force.

The total does not include the *per capita* tax on dogs, which amounted in 1889, to \$202,457.
